

IMS Policy

"Dag Etek" individual enterprise was established in 2016 in Gokdepe etrap of Ahal velayat and provides special purpose vehicles and equipment with services, transportation-expedition services and supply of goods in Turkmenistan.

The enterprise is oriented on long-term and mutually beneficial cooperation with companies that have high reputation.

Satisfying the needs of interested parties with high quality, safety and without harm to human health and the environment are the main priorities in the activities and development strategy of enterprise.

"Dag Etek" IE willingly and continually maintains the integrated management system of quality, environment, occupational health and safety in accordance with the requirements of the international standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 in order to improve its overall performance and provide a sound basis for systematic and sustainable development.

Enterprise management is committed to:

- ensure that its activities meet customer, applicable statutory and regulatory requirements, the requirements of relevant interested parties, as well as the requirements of international standards;
- increase the ability to consistently provide services and facilitate opportunities to enhance customer satisfaction;
- set quality, ecology, occupational health and safety objectives and support the implementation of plans to achieve these objectives;
- carry out its activities on the basis of efficient and effective processes, taking into account risks and opportunities;
- provide safe and healthy working conditions for the prevention of occupational injuries and diseases, eliminating hazards and minimizing risks by taking effective preventive and protective measures;
- reduce adverse environmental impacts by assessing the environmental aspects of the enterprise, prevent pollution, sustainably use environmental resources, preserve biodiversity and the ecosystem;
- evaluate the performance and continually improve integrated management system

**This Policy is communicated within the enterprise and to partners,
active participation in its successful implementation is supported**
